

Online Video Mediation

Stay Locally.
Mediate Nationally.

Resolute's online video mediation solution is an easy and low-cost way to participate in mediations.

It's Easy to Get Started

Step 1.

Resolute will coordinate with all parties involved in the video conference to ensure they have the appropriate technology.

Step 2.

A day prior to the mediation Resolute will perform a test with each location to ensure smooth connectivity. Each participant will receive an email invitation with the necessary log-in information.

Step 3.

On the day of the mediation, all participants will sign-in to the video conference via their computers. Resolute will provide all necessary tech support during the conference.

Benefits:

- Secure connection with high-quality audio can join up to 28 different locations. Participants can fully interact with each other without time delay or video lag.
- Significant cost savings realized through reduced travel expenses and next-generation video conferencing technology.
- Easy-to-access video conferencing capability anywhere there is an internet-connected PC, Mac, iPhone, or iPad equipped with a webcam.
- Participants can fully interact with mediator and opposing parties without time delay, drop outs or video lag
